Tehran ,Iran

About me

I have over three years of experience in software industry with dominated history of working with python and django.
I do programming with interest and I use every opportunity to gain my experience and growth.I am also familiar with working as a team and I can work well with the team.

Work Experience

100Negar
2021-2022

I worked on the Negar 100 project using Django, DRF, All Auth in BackEnd and Vue Cli, Vuetify, Axios in FrontEnd. The strength of this website is its powerful admin panel.

Back-end Developer
2021- 2022

I'm currently exploring and learning advanced topics of back-end development and developing different websites in Django framework
